RESULTS

Fumagri® HA efficacy

Required efficacy according to standard NF T 72-281: 5 log for bacteria and 4 log for moulds.

Type of shed	Number of Fumagri® HA 1000 g tins
400m ²	1
800m ²	2
1000m ²	3
1200m ²	4 (3 for side access shed)
Laying premises	To suit shed volume

Code	Description
673001	Fumagri HA 20m ³
673002	Fumagri HA 50m ³

Fumagri OPP

Disinfectant smoke bomb fogger to eradicate fungal and bacterial contamination

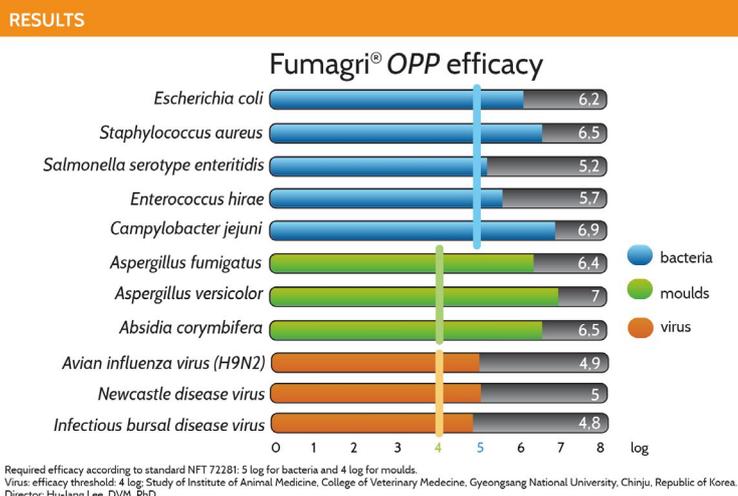

Your Number 1 Choice For Fighting Salmonella

Bactericidal and fungicidal disinfectant with **OrthoPhenylPhenol (OPP)**
Dispersion by **Ultradiffusion®**

Complies with biocide regulations, use **PT03: livestock premises disinfection**

- Demonstrated effectiveness against salmonella, aspergillus and other bacteria and moulds as well as against the following viruses: Avian influenza virus (H9N2), Newcastle disease virus, Infectious bursal disease virus
- Uniform diffusion of the disinfectant
- Safe to operators and animals after use: no humans or animals present during treatment
- Convenient and fast application
- Non-corrosive
- No staining risk

Type of shed	Number of Fumagri® OPP 1250m ³ tins
400m ²	1
800m ²	2
1000m ²	3
1200m ²	4 (3 for side access shed)
Laying premises	To suit shed volume

Code	Description
673008	Fumagri OPP 1250m ³
200075	Fumagri OPP 25m ³ , 20g
