SCIENCE IN SOLUTION

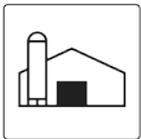

KILCOX EXTRA

A HEAVY DUTY DISINFECTANT TO AID IN THE MANAGEMENT OF COCCIDIOSIS AND CRYPTOSPORIDIOSIS

- A blend of high grade synthetic phenol, glutaraldehyde and a quaternary ammonium compound
- Proven coccidial and terminal disinfectant
- DEFRA approved (Swine Vesicular Disease, Diseases of Poultry & General Orders)
- Broad spectrum - effective against parasites (including eimeria) & viruses / bacteria (including E. coli)
- Can be used in Poultry/ Pig/ Sheep & Cattle Housing

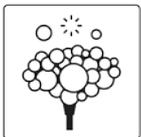

RECOMMENDED USAGE

For standard terminal disinfection purposes use at 1% v/v.

Recommended dilution 2-3% v/v in use for specific coccidial challenge. 4% can be used for severe challenge and/or in low temperatures.

Apply dilution at 0.3L per square metre, spray the building and all equipment.

For best results, all surfaces should be thoroughly cleaned with a Kilco foam product such as Ecofoam Plus and rinsed with clean water before Kilcox Extra application.

For cryptosporidiosis, remove all gross soiling, foam clean and rinse as above and then spray or foam Kilcox Extra at 3-4%. Leave for 2-4 hours and then rinse again.

Foot Dip baths at 1-2% v/v dependent on frequency of use and organic challenge. Thermal Fogging at 1:3, apply 1 to 1.5 litres per 1000 square feet of floor area.

Independent laboratory testing

Results show Kilcox Extra destroys 100% oocysts at 2% application and E. coli at 0.5%.

DEFRA approvals

General Orders 1:50, Swine Vesicular Disease 1:100; Diseases of Poultry 1:100

Storage: Store in the original container below 25°C in a dry, well ventilated place. Store away from foodstuffs and animal feedstuffs.

Pack Size: 4x5 & 25 litres

Shelf Life: 2 years

USE BIOCIDES SAFELY. ALWAYS REFER TO THE PRODUCT LABEL AND SAFETY DATA SHEET BEFORE USE.
