

OmniGel™

Heavy Duty Alkaline Foam/Gel Cleaner

OmniGel™ is a heavy duty detergent for use as a foam or gel cleaner in animal housing and food preparation areas. OmniGel™ is a sprayable gel that thickens on dilution to form a clinging gel. Excellent for removal of heavy soiling and preparation for application of disinfectants.

For use in

- Suitable in both hard and soft, hot or cold water
- Prolonged contact time
- Designed for use with all types of pressure washers and foaming lances
- Powerful action on heavy organic deposits on walls and floors
- Use on slats, cages, pens, floors and walls
- Saves on water, energy and labour
- Cleans and prepares surfaces for the application of a disinfectant

Application

OmniGel™ should be diluted between 2-5% depending on soiling and thickness of gel required. Apply via a suitable foaming lance on low pressure to ensure prolonged contact time.

For best results OmniGel™ should be applied using water of ambient temperature.

Leave OmniGel™ on the surface for up to 15-30 mins do not allow to dry before washing thoroughly with fresh potable water applied via a high pressure washer with either hot or cold water.
